WHY RESIN BOUND?

PERMEABLE SURFACE

Our bound systems are fully permeable to air and water. This means when laid over our permeable binder base coat system it creates a Sustainable Urban Drainage system [SUDs] requiring no planning permission.

LOW MAINTENANCE

A resin driveway minimises puddles, ice and growth of mould and weeds. All it requires is a jet wash/hose down and sweep with a stiff brush.

A STUNNING DECORATIVE FINISH

As well as being extremely hard wearing and water permeable, our Resin Bound systems are available in over 60 different colour blends

BENEFITS

- ✓ Naturally drains water
- ✓ Weed Resistant
- ✓ Low Maintenance
- ✓ Huge Range of Colours
- ✓ Can be Overlaid
- ✓ UV stable resin
- ✓ Visually stunning

ABOUT US

Peterborough Improvements are the longest established Resin Bound installers in the Cambridgeshire area. Our methodical and professional approach to design and installation ensures a consistent, quality service which is what sets us apart from the competition.

With many material suppliers now offering 1-day training courses there are more and more inexperienced installers now advertising resin services. It is vital that for a professional installation you find an installer with a proven track record. Not only to know that the job will be completed to the highest standard, but to know should there be issues down the line, you have someone to come back to.

Reasons people choose us

- A great service at a fair price
- Fully approved in-house trained staff
- Fully insured
- 25+ years groundworks experience
- Free quotations and design
- Recognised industry accreditations

- Established company with a proven history and company premises
- We also deal with - Block Paving, Drop Kerbs, Fencing, Artificial Turf, Decking, Roofing, Metal Gates and Railings
